

Meet Your CogniToy!

cog•ni•toy (n): 1) A curious and clever little creature that loves to talk and loves to learn.
2) An internet-connected companion that grows with your child. Your CogniToy listens and interacts to create a personalized experience.

2

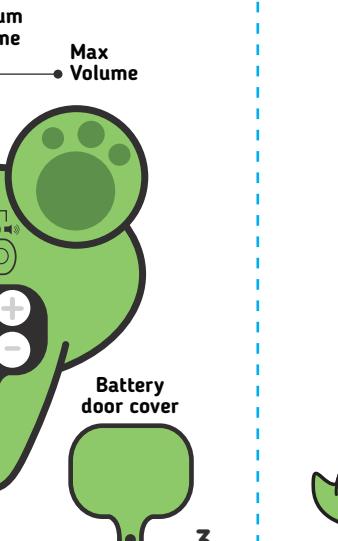

Getting Started

Requires:

1. Install 4 AA Batteries

- Unscrew battery door with a Phillips screwdriver.
- Insert 4 AA batteries as shown (see page 7 for Battery Safety Information).
- Use the Power/Volume switch to wake up your Dino.
- The Mouth Indicator lights will turn on and flash orange indicating the Dino is awake and ready to be set up.

3

2. Connect to Wi-Fi

You must connect your Dino to Wi-Fi in order for it to work. Once the Wi-Fi network has been configured, your Dino will connect to that network automatically if in range. Your CogniToy can remember up to 7 networks. To add a network, go to the Wi-Fi Settings in the Main Menu of the CogniToys App. To connect your Dino to Wi-Fi for the first time, follow these steps:

Download the free CogniToys App to your compatible smartphone or tablet from the App StoreSM or Google PlayTM.

Open the CogniToys App on your phone or tablet and follow the on-screen instructions to connect your CogniToy to Wi-Fi and setup your toy.

When the Mouth Indicator turns blue and the Dino says, "Hello," start playing!

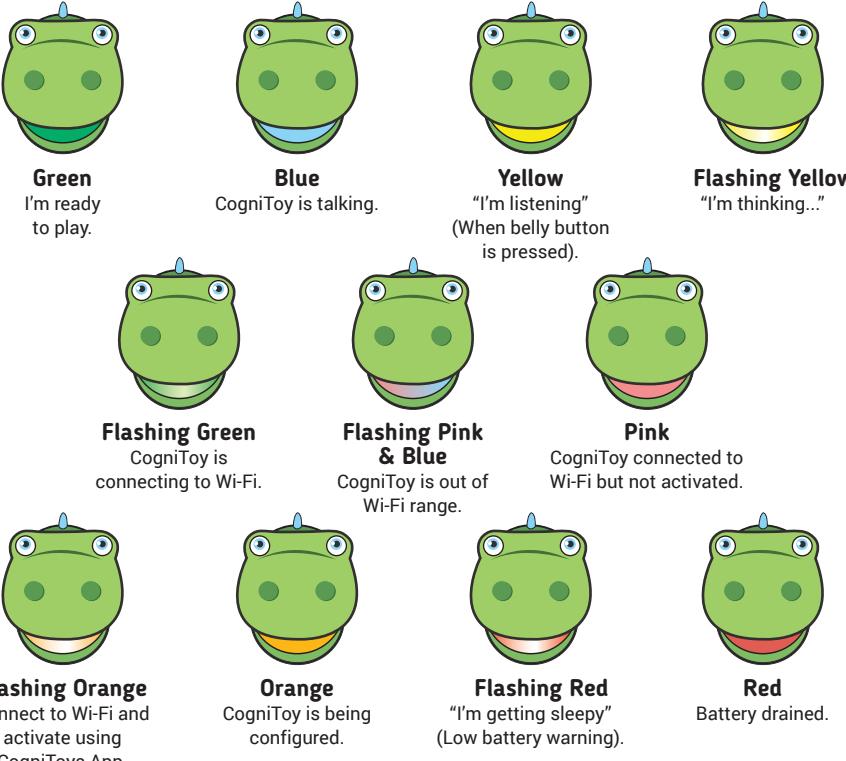

Download the App so we can start playing!

PARENT PANEL AND PRIVACY POLICY

Parents can access a web-based dashboard to review their child's interactions with the Dino and change their account settings.

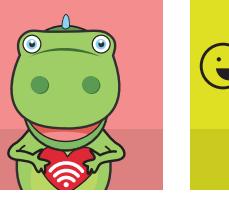

Elemental Path does not access or share this information with any third parties. For our privacy policy, please visit: www.cognitoys.com/privacy

Tips and Troubleshooting

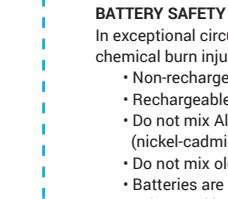

Your CogniToy must be within range of your Wi-Fi connection for its interactive features to work.

For optimal understanding, clearly speak about 1' (30cm) away from the microphone.

To keep your CogniToy clean, use a damp cloth and mild soap. Do not use other cleaning agents. CogniToys DO NOT like baths!

If CogniToy is left unused for a month or longer, have an adult remove the batteries to prevent corrosion.

What's wrong?

Our CogniToy stopped working when we left the home.

Why?

Your CogniToy is out of Wi-Fi range of the connected network.

What Should I Do?

Make sure your CogniToy is within range of the Wi-Fi network it is connected to.

We brought our CogniToy to a new location with Wi-Fi and it's not working.

Your CogniToy has not been configured to work with the network in your new location.

Use the Wi-Fi settings on the CogniToys app to connect it to a new network.

The CogniToy is switched on, my child is talking, but the toy is not responding.

Batteries may need to be replaced or the CogniToy is out of the range of your Wi-Fi network.

Follow the instructions in the Getting Started section to replace your batteries or setup a new Wi-Fi network.

The CogniToy does not understand my child's questions.

- Too much background noise.
- Something is blocking the microphone (located in the Dino's nose).
- Your child is too far from the Dino.

The Fine Print (For Grown-Ups)

BATTERY SAFETY INFORMATION

In exceptional circumstances batteries may leak fluids that can cause a chemical burn injury or ruin your product. To avoid battery leakage:

- Non-rechargeable batteries are not to be recharged.
- Rechargeable batteries are only to be charged under adult supervision.
- Do not mix Alkaline, standard (carbon-zinc), or rechargeable batteries (nickel-cadmium) batteries.
- Do not mix old and new batteries.
- Batteries are to be inserted with the correct polarity.
- Exhausted batteries are to be removed from the product.
- The supply terminals are not to be short-circuited.
- Dispose of batteries safely.
- Do not dispose of this product in a fire.
- The batteries inside may explode or leak.
- Batteries should be removed if the item is not going to be used for 30 days or more to prevent leakage or damage to the unit.

FCC INFORMATION

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. The equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

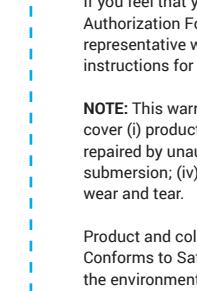

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This class B digital apparatus complies with Canadian ICES-003. Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

This device complies with FCC RF radiation exposure limits set forth for general population (uncontrolled exposure).

This device must not be collocated or operating in conjunction with any other antenna or transmitter.

grown-up
section.

LIMITED LIFETIME WARRANTY

Elemental Path warrants this product to be free from defects in workmanship and materials, under normal use and conditions, for the lifetime of the product. In order for your product to be covered under the warranty, your CogniToy needs to be registered and you must create an account using the CogniToys App. Before contacting customer support to determine if your toy is under warranty, please first make sure your CogniToy is connected to Wi-Fi and try replacing the batteries with fresh ones, as exhausted or defective batteries are the most common cause of problems encountered.

If you feel that your CogniToy is defective, please visit <http://www.cognitoys.com/support> and fill out the Return Authorization Form and include proof of purchase, and any information related to the defect. A customer service representative will review the information to determine whether your claim is covered. If approved, you will then receive instructions for sending your CogniToy back in order to receive a replacement.

NOTE: This warranty is valid only if the product is used for the purpose for which it was designed. The warranty does not cover (i) products which have been damaged by negligence, misuse, or accident, or which have been modified or repaired by unauthorized persons; (ii) units damaged by excessive heat; (iii) units damaged by water or water submersion; (iv) units given to owners of the product other than the original purchaser; (v) units damaged by normal wear and tear.

Product and colors may vary. Remove all packaging before giving to a child. Retain this information for future reference. Conforms to Safety Requirements of ASTM F963. Adult supervision recommended. Dispose of batteries safely. Protect the environment by not disposing of this product with household waste. Check your local authority for recycling advice and facilities. If you actually read through all of this, good for you, you get a (metaphorical) gold star.
